# ABOUT US

From our beginnings as a single cold storage facility, we have grown to be the UK's largest single site cold storage facility.

Our main site in Boroughbridge now comprises a total of seven individually designed state-of-the-art cold storage facilities, capable of storing over 168,000 pallets of frozen produce at any one time.

Every day of the year, 24 hours a day, our refrigerated vehicles deliver 'just in time' stocks of the UK's leading chilled and frozen brands from our sites across the United Kingdom to our customers in every corner of the land.

# OUR TRAINING

For years it was recognised that becoming a HGV driver could be costly, especially in times when finances are hard. We wanted to make a difference in peoples lives such as you, and to allow people to realise their dreams so in September 2021 the Reed Boardall Academy was launched.

Since then we have had hundreds of enquiries and we are proud to say that our Academy drivers are now on the road delivering to our customers.

No matter who you are, if you have a full driving licence and a passion for driving, why not come and join us. Let us make your dream a reality.

## What is the cost?

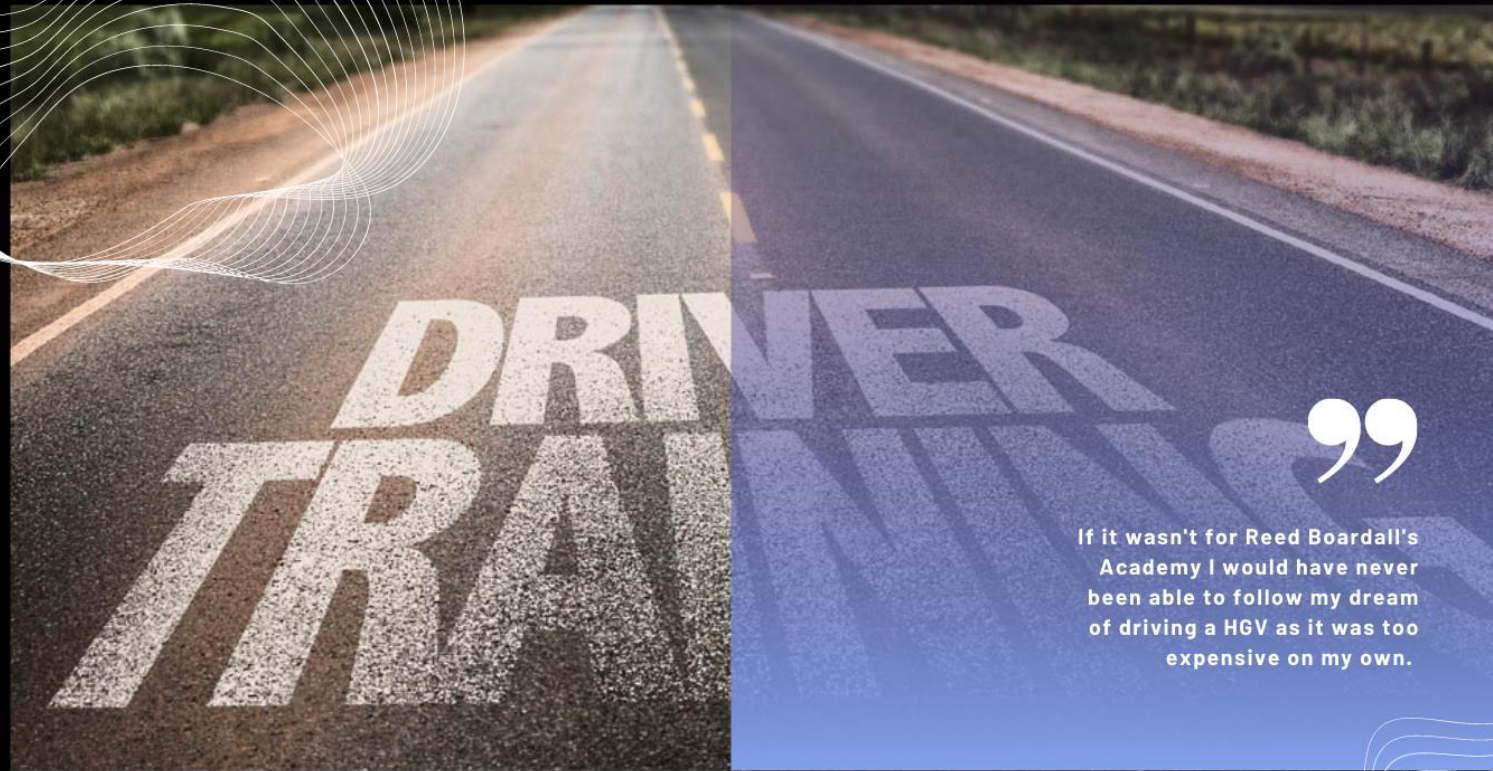

There is no upfront cost to you for your training. Working with our training partners we will pay for all upfront training fees including theory/practical training, CPC and tests.

## What is the catch?

There is no catch. All we require is 1 years return of service after your training (subject to a signed training agreement) and you will be paid our very competitive 'Academy' rates. After 1 years service you will be paid our full 'Qualified' rates. We also offer you 2 year and 3 year bonus for continuous service after training.

## How long will it take?

Due to the DVLA backlog, we cannot guarantee the time it will take to complete your training, however a good estimate would be between 12-14 weeks. Our Training partners (HGVC & Melmerby HGV Training) will keep you updated on each and every step. You also have the option of working with us as part of the Warehouse team so you can EARN WHILE YOU LEARN!

**“  
If it wasn't for Reed Boardall's Academy I would have never been able to follow my dream of driving a HGV as it was too expensive on my own.**

# OUR SOLUTION

## To getting you on the road

The average cost of HGV Training can range between **£3.5k** and **£4k**. The average age of a HGV Driver in the UK is **57**.

Come, join our family and be the difference to drive the future

# WHY US ?

## We care about your training

Many companies will not take on new drivers and expect at least 2 years' experience. We believe that the best drivers are the ones who are given a chance to grow and develop in a supportive environment. We do not believe in simply 'giving you the keys and letting you go'.

As a new driver, either from our Academy or as a new applicant after getting your licence, you will go through a supportive assessment. You will then be designated a driver trainer who will coach you and mentor you in driving one of our modern fleet of units. This can take between a few days and a few weeks but do not worry, you will be given as much support as possible throughout.

Once you have completed your driver training you can then be assured that you are ready to hit the road as a Reed Boardall driver
